RE: Letter of Concern, License No. 2767, Case No. 3309(B)M

Dear Dr. Mickle,

At the meeting on December 10, 2005, the Arizona Board of Osteopathic Examiners in Medicine and Surgery ("Board") conducted a case review on the above-referenced complaint. The complaint alleged, among several other things, that the physician assistant that you were supervising failed to provide adequate patient care which may have fallen below the prevailing standard.

Based on the information presented, the Board found there was insufficient evidence to conclude that your conduct constituted unprofessional conduct or to support direct action against your license. However, the Board voted to issue you this advisory LETTER OF CONCERN pursuant to the provisions of A.R.S. 32-1855 (D) (2). The Board was concerned that you failed to adequately train and supervise a physician assistant which could ultimately lead to a violation of A.R.S. §§ 32-1854 (34), which states:

"Lack of or inappropriate direction, collaboration or supervision of a licensed, certified or registered health care provider or office personnel employed by or assigned to the physician in the medical care of patients."

A Letter of Concern is a non-disciplinary action that remains part of the public record of your license for five years from the date of issuance (meeting date). During those years it will be provided in response to requests for copies of your license file or verifications of license status, including being posted on the Board's website. It also may be cited in future actions against your license. Because it is not a disciplinary action, it is not reported to the National Practitioner Data Base.

Respectfully,

Jack Confer
Executive Director
